Premier 401K

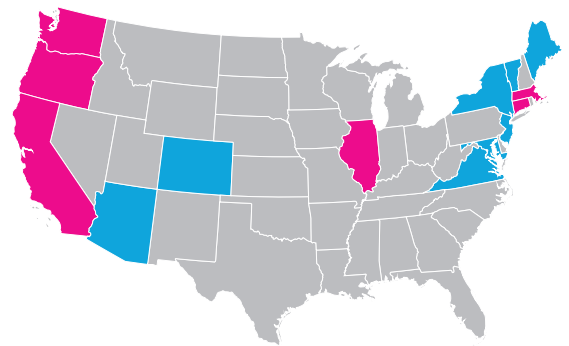

Attract and retain top talent.

88% of workers say a 401(k) is an important benefit and 81% say it impacts their decision on where to work. Don't be left out. Opt for a 401(k) plan tailored to your business and delivered without administrative headaches.

Top 3 Reasons to offer a 401K

State Mandates

If you are in one of the highlighted states, it is either mandated or soon to be mandated that you offer a 401K plan to your employees. To stay compliant, you must act now.

Secure Act

The Secure Act provides start up plans eligible for tax credits of up to 50% of the plan expense. If Secure Act 2.0 is enacted, this could move to 100%. Stay compliant and get a credit. Credits are captured immediately – don't miss out on the opportunity to satisfy state mandates and remain compliant.

Audit Avoidance

If you have 100+ employees, you can eliminate the need and cost of conducting annual plan audits. Save between \$4K-\$10K annually while also shifting the risk and administrative burden to the Plan Sponsor with an integrated offering.

Why work with us?

Premier 401K offers a quick set up, removal of administrative burden, risk mitigation through the pooled employer plan (PEP), and integration with our existing platform.

Together, let's equip your organization to drive business success with a cost-effective and efficient 401(k).
